

Newton Dairy Farm

Brokenborough, Near Malmesbury, Wiltshire, SN16 9SR

Set on the edge of the aerodrome, the yard of Lucy Pickford's offers the use of their massive outdoor arena which has a mix of sand, fibre and rubber for the surface which is excellent to ride on. With a full set of Poly Jumps and the size of the arena it lends it is an excellent venue to train over a course and is one of our competition venues.

There is a mass of hard standing for parking, with plenty of room to turn lorries and trailers round.

Directions :

If you use the post code in a Sat Nav it will take you to the road leading to Long Newton but leave you a little short of the venue. If travelling from Crudwell Road the A429, Newton Dairy Farm is on the right hand side 1.3 miles from the A429. As you come around a right hand corner (lots of solar panels are in the field on the right) you will see signed for Byways (both left and right) – take the right hand track (quite bumpy) and keep taking the right hand forks (otherwise you will go to the house). The arena is then on the left with parking available on each side of the road but please do allow access for vehicles to be able to get down the track.
